- 13 + 1

On March: Invercargill 7 times

It was a large parade for a small town. The town is located on a ridge in the Hocking Hills near the rock house. The parade formed on the hillside of a farm about a mile from town. We were short in the drum section - only one but he played both drums at the same time. The cadence was fast and he was cautioned to slow it down. In half a hour it was all over and we returned to the starting point.
