### Adelphi Band Musicians:

Just a reminder.

### Lancaster Festival Concert:

Fairfield County Fairgrounds  
Saturday July 22, 11:00-11:45

1. Especially for the newer musicians, allow yourself plenty of time to get into the Fairgrounds and to the stage. We won't be able to park next to the stage, so they will have golf carts picking us up.
2. We have been told that we can park at the maintenance buildings just to the LEFT as you go into the Fairgrounds from the Main Gate. There the golf carts will be able to see you sooner and give you a lift to the stage quicker.

3. There is an admission charge to get onto the grounds, but just tell them that you are in the band and they will just waive you on through.

4. Play List:

This is one of only 2 performances all year where we are the main focus of an event, as opposed to basically being background music.

**You will want to make sure that you pull your music ahead of time, in order, and let me know no later than the day before if you are missing anything.**

I don't want to do an introduction to the audience for a song and then turn around and be told by a musician that they couldn't find that song.

They sent me a map of the grounds listing a lot of the vendors and activities:
