Date: August 14, 2020

There are updates to share concerning our projected list of engagements.

#1 - The Fairfield County Fair has announced that they are only having a junior fair this year, in compliance with current restrictions. At the present time no rides, games, or grandstand entertainment is permitted. Harness racing is permitted, but without an audience in the stands.

As a result of the above, a Fair Board representative contacted Glenn to inform the band that we will not be playing this year.

#2 – The Circleville Pumpkin Show has been **CANCELLED** for 2020.

#3 – Previous years it has been customary for the band to have an end-of-year gathering (dinner). There will not be one this year. The primary reason is the restrictions on gatherings of any significant size

The Adelphi Community Band Newsletter

You can quickly determine from the above list that our season actually ended before it started. I've heard many band stories over the years, but none that described an entire season without practices or performances.

For now, this appears to be the final newsletter for 2020. Look for another edition next spring, when hopefully this virus stuff is a distant memory.

Stay safe.
