

Fun never ends at the county fair

Get out the sunscreen and sneakers, load the kids in the car and get ready for some great entertainment. It's time again for the Ross County Fair.

The 4-H kids have worked all summer on projects, Mom's got her pies and canned goods ready and Dad's got the steer in the truck. One great thing about the fair is there's a little something for everyone.

And the entertainment this year is something else. From leopards and black panthers, to puppets to a Toyota Thrill Show, the sights will be there to be seen.

Music will fill the air, from the Adelphi Band to a gospel concert to Aaron Tippin and Sawyer Brown, there will be a sound for every taste.

But best of all, there will be all the kids with their projects. Cows, sheep, rabbits, chickens, hogs — just about every critter imaginable will be on display.

Booths will be brimming with projects and the commercial booths will be handing out the goodies.

And, of course, the politicians will be out in force to hear our concerns and get our vote.

All this, close to home, and it doesn't break the pocketbook to take the family and spend the day — what a deal.

Even the weather may cooperate. But even if it doesn't, the fun never ends. So come on Ross County, let's go to the fair.
